YOUR COMPUTER HATES SPRING! PROTECT IT WITH A SURGE SUPPRESSOR!

For \$29.95 you can reduce the chance that your computer will get zapped by a power surge. Ever forget your umbrella? It's just as easy to forget to unplug the computer when there's a chance of thunderstorms. The APC SurgeArrest guards both the electric *and* telephone lines, giving your computer a fighting chance against nature's fireworks.

SPACE-SAVING MONITORS ARE AFFORDABLE!

17" flat screen LCD monitors start at \$249. With LCDs, 17 inches means 17 inches so you get the viewing space you expect. And they're thin! Imagine pushing back your monitor nearly a foot and having all that extra work space in front of you.

SOMEONE COULD BE WATCHING YOU ONLINE!

Maybe they're just annoying you with popup ads. Or maybe they're logging your keystrokes and stealing your passwords! Stop them with **PestPatrol!** Just \$29.99

Does your computer take a long time to start up? Does your home page keep changing? Are you besieged with popups as soon as you get on the Internet? These could all be signs of spyware. **PestPatrol** removes spyware.

MORE BOOM FOR THE BUCK!

You can load your computer with a lot of music. You deserve some decent speakers to hear it the way it was meant to be.

The Logitech X-230 speakers deliver 32 watts per channel and include a subwoofer you can adjust separately. Don't just listen to your mp3s. Feel them! **\$59.99**
